Thu Aug 13 11:30 PM

"All Washed Up", new photo in the Trash The Dress series. [#photog](#) [#photoshop](#)
<http://flic.kr/p/6Px1MC>

Thu Aug 13 2:48 PM

RT [@iotashan](#): queries in cfscript is as bad as doing queries in any other lang.
cfquery will always be superior to Query() in ease of use

Thu Aug 13 2:47 PM

[@Photocritic](#) In digital imaging half the data is in highlights & can be recovered
PDFs: <http://bit.ly/1ReSZ> <http://bit.ly/11osFd>

Thu Aug 13 12:31 PM

[@stevei](#) Great posing on Paige for the lying down, forward shot. Would have been
nice to have some more crash to the waves. [#TTD](#) [#Photog](#)

Thu Aug 13 12:22 PM

[@douglasknudsen](#) Looks more interesting and relaxing then the Bethesda Marriott
[#cfunited](#)

Thu Aug 13 11:59 AM

[@scouten](#) I haven't seen camera breakdown in articles I've read, but good rule of
thumb PDF <http://bit.ly/1ReSZ> PDF <http://bit.ly/11osFd>

Thu Aug 13 11:47 AM

Better to overexpose than underexpose since 1/2 image info is in the highlights.
[#ACR](#) [#photog](#)

Thu Aug 13 11:44 AM

Beware ColdFusion on Mac is the only CF/*nix combo where not required to start
as root. Can create log permissions issue if not using sudo

Thu Aug 13 11:18 AM

@paulkukiel Osmosis should kick in pretty soon! **#cfunited**

Thu Aug 13 11:13 AM

@iotashan Beware ColdFusion Multi install/uninstall start scripts
<http://bit.ly/D3bF5>

Thu Aug 13 11:11 AM

@iotashan Otherwise, here's a manual way for Linux **#coldfusion #jrun**
<http://bit.ly/2TdbCq>

Thu Aug 13 11:09 AM

@iotashan I remember seeing a coldfusion8multi script in /etc/init.d. It might just start the cfusion, but I thought it could 4 other jrun

Thu Aug 13 11:07 AM

@iotashan Good Q. Before 801 there was no feature for this on *nix at all. Now possible on Linux/Unix. Mac not sure yet **#coldfusion #jrun**

Thu Aug 13 10:12 AM

@lightroomblog Your live music photography absolutely blows me away.

Thu Aug 13 9:37 AM

@DanaLanePhoto Thanks again. As long as my little guy sleeps better, I get more editing done :D **#photog**

Thu Aug 13 9:28 AM

The Party's Over. First image from the Trash The Dress shoot in Rhode Island this weekend. **#photog** <http://flic.kr/p/6PhpVb>

Wed Aug 12 7:33 PM

@scouten Thanks 4 the LR3 Intel tip. To maximize use of 30" Cinema display on a G5/PPC, I may need to dock my MBP to it. **#Lightroom #Mac**

Wed Aug 12 7:30 PM

Thanks **@scouten** ! I'd forgotten about optimization. Now my massive Lightroom catalog runs lickety split.

Wed Aug 12 7:22 PM

@iotashan wiseguy!

Wed Aug 12 5:24 PM

@mpwoodward I have MBP Intel and G5 PPC, both with CS4 Master Coll. But PPC has the 30" Cinema Display attached. **#photog #adobe**

Wed Aug 12 4:59 PM

But will Lightroom 3 run on Mac PPC.? Adobe announced that future Creative Suite will not run on PPC Macs, just Intel.

Wed Aug 12 4:48 PM

Screaming at Lightroom right now bc at 18,000 images everytime I open catalog I get the beachball of death for several minutes. Aaaarrggh!

Wed Aug 12 4:45 PM

@javierjulio Thx! My 6mo son Antonio will be learning Catalan, English, and

Castellano in that order! Maybe JQuery Bootcamp will happen

Wed Aug 12 4:40 PM

@javierjulio Wish I could catch up with you Javier, but I'm watching from the spectator seats at home. (My castellano requires a "warm up")

Wed Aug 12 3:32 PM

@demirkapi Oguz, here's a tip: Turn the camera around 180 degrees! ;-)
@webRat **#CFUnited**

Wed Aug 12 3:28 PM

What ever happened to **@bennadel** 's JQuery Bootcamp? **#coldfusion**

Wed Aug 12 3:15 PM

@douglasknudsen Funny, I just discovered I blogged about the error in 2005, and it's the top hit for "No more data available to read"

Wed Aug 12 3:12 PM

@styggiti Really? you shot it at CFUNITED? Any beds or food involved?

Wed Aug 12 2:21 PM

@doleary2112 CF8 has JDBC Spy built into it as a check box in the dsn. I blogged it in 2005 <http://bit.ly/BHNef>

Wed Aug 12 2:08 PM

"No more data available to read" I thought ColdFusion was all done with that...
#Oracle

Wed Aug 12 12:29 PM

@rukumar <http://www.flickr.com/photos/oguz/3815169970>

Wed Aug 12 12:25 PM

@webRat I spy **@cameronc** , **@commadelimited**, and **@kwiersma** in your lunch twitpic <http://twitpic.com/dmclt> **#cfunited**

Wed Aug 12 10:32 AM

Check out Stax for a cloud based platform adapted for J2EE environments. It provides a base ColdFusion image to build out. <http://stax.net>

Wed Aug 12 10:25 AM

@webRat Then some lucky folks had a round of cognac

Wed Aug 12 10:21 AM

@webRat **@styggiti** I sent some drinks to at table clubhouse bar that was supposed to be for you guys. Did they make it? **#cfunited**

Wed Aug 12 10:17 AM

@pbausch Fussy DBAs aren't going to let ORM fly very far without a great deal of hand holding and oversight **#cfunited**

Wed Aug 12 10:14 AM

RT **@joaofernandes**: too many different implementations for **#ColdFusion** /AIR integration! CF9 AIR persistent library / FB4 Data Mgmt / LCDS

Wed Aug 12 10:12 AM

@webRat I'm pretty sure that's an 8 year old in the first row, just in front of the podium. Youngest attendee? **#cfunited**

Wed Aug 12 10:10 AM

@commadelimited Awesome, thanks! I'm geographically challenged :D

Wed Aug 12 10:06 AM

Hey **#CFUNITED** folk, how bout some twitpics please? **#coldfusion**

Wed Aug 12 10:02 AM

RT **@RedHatNews**: RT **@LauraCunningham**: Happy 10 years since IPO to Red Hat: <http://tinyurl.com/mzdv63>

Wed Aug 12 9:53 AM

@DanaLanePhoto Sorry to hear that. I spent 10 weeks with bronchitis. Two rounds of antibiotics were required to clear it.

Wed Aug 12 9:44 AM

I think TweetDeck is red lining and overheating today with all the **#cfunited** chatter

Wed Aug 12 9:40 AM

chuckles RT **@reflynn**: RT **@cfjedimaster**: from Forta - biggest prob seems to be finding cf devs. Out of a job? Why not learn **#coldfusion**?

Wed Aug 12 8:51 AM

@webRat @lolajl @cfwhisperer that will require much libation, for me and the audience

Wed Aug 12 8:34 AM

@cfwhisperer Thanks. I hope to develop a talk for RIA Unleashed, perhaps LCDS+ColdFusion. You bring the whiskey, I'll bring the talk ;-)

Wed Aug 12 8:21 AM

+1 on both. RT **@notronwest**: Just added my **#cfunited** column in tweetdeck. Really wish I was there.

Tue Aug 11 10:30 PM

A lucky table of 10 at **#cfunited** clubhouse bar received a round of cognac. Don't know who it was, but hope they enjoyed. Viva ColdFusion!

Tue Aug 11 9:56 PM

@rukumar Right, that's what I was thinking, but it didn't come out right.

Tue Aug 11 9:31 PM

@Neurotic I QA'd the feature when Tx rollbacks were introduced in **#coldfusion** 8.0. Svetlin K developed the feature.

Tue Aug 11 9:07 PM

Cheers to the ColdFusion Community. Here's to collaboration, sharing, leadership, and friendship! **#CFUNITED**

Tue Aug 11 8:56 PM

@commadelimited In spirit only! :-) **#cfunited**

Tue Aug 11 8:33 PM

It was the kiss of death that I joined the LinkedIn group for Adobe Alumni last year, before I was one. (not really: Webapper ftw!)

Tue Aug 11 8:07 PM

@webRat You can find Rob BB, Terry, Adam, and Ryan at the clubhouse bar
#CFUnited

Tue Aug 11 5:04 PM

@iotashan looks like you've got a blog entry there on autogenerated keys w/ ORM

Tue Aug 11 4:54 PM

@styggiti They recognize you and all wondering why you're not talking to them :D

Tue Aug 11 4:01 PM

@iotashan You mean the autogenerated key that you get on an insert?
#coldfusion

Tue Aug 11 3:54 PM

@cfjedimaster There's coffee downstairs in my kitchen. If you're desperate, c'mon over. **#cfunited**

Tue Aug 11 2:21 PM

Recovered from months of bronchitis, I pulled myself back onto the bike to do a 7 mile, hilly ride. Feels good as new (albeit slower)

Tue Aug 11 10:46 AM

@iotashan Ha! Was that to meet government regulations on shipping standards?

Tue Aug 11 10:33 AM

Dear **@calumetphoto**, tdo much packaging! Srsly! 3 empty, flat sandbags shipped in 2 crdbrd boxes filled with peanuts. Use an envelope.

Fri Aug 07 11:20 PM

@commadelimited jk! jk! jk! Don't wake up **@lizign** or she'll kill me

Fri Aug 07 11:16 PM

@commadelimited Oh, they didn't tell you **#cfunited**

Fri Aug 07 11:11 PM

Holy shit **@wbznewsradio**, I think 11 consecutive tweets is a misinterpretation of how Twitter is used as a social medium. **#spam #clogged**

Fri Aug 07 11:00 PM

@jonahb Thanks for the travel advice for SFO. Amtrak and Greyhound sound good. I'll try to avoid the axe murders off Craigs List. Thx!

Fri Aug 07 10:55 PM

@mobarger For apples to apples comparison, I tail -f the gc log and eyeball comparisons elsewhere.

Fri Aug 07 10:54 PM

I cahnnot speek the english langwege

Fri Aug 07 10:53 PM

@mobarger true true, if analyzing performance. But total allocatd is still total allocated and relevant to overally system resourcs

Fri Aug 07 10:52 PM

@lightroomblog Don't forget **@GuyWithCamera** !! **#ff #photog**

Fri Aug 07 10:40 PM

@mobarger yeah, I could do that, but I just had a Mike's hard lemonade and GC/SF is as good as it gets right now :D

Fri Aug 07 10:38 PM

@mobarger So I set CF to use -Xms512m -Xmx512m to force a constant mem usage. GC log shows 510m allocated SeeFusion shows 498 allocated

Fri Aug 07 10:29 PM

@mobarger I think the SF numbers are good, but need to compare to GC logging for accuracy. I often forget top is heap + permgen

Fri Aug 07 10:15 PM

@coofuushun ah... just realized that top also includes memory used in PermGen, where as SeeFusion is showing just the regular Heap size

Fri Aug 07 10:14 PM

@coofuushun My default installation of CF9 on Mac is using 400MB RES according to top, but SeeFusion shows it as 184M allocated and 44M used

Fri Aug 07 9:39 PM

Great vid! RT **@fotozine**: New video that explains hi speed sync and shows benefits of PocketWizard Mini/flex: <http://bit.ly/UmlVI>

Fri Aug 07 9:30 PM

@awest btw, owner is a racing fanatic. On I-70 we did 90-120 the whole time, even did some drag racing in Denver up to 120. 150+ in mtns

Fri Aug 07 9:27 PM

@ibjhb Merge Module is part of the Install Anywhere install application for **#coldfusion**

Fri Aug 07 9:25 PM

@awest Ford GT racing <http://bit.ly/Jlj4J>
<http://www.youtube.com/watch?v=yRR6lTUzztY>

Fri Aug 07 9:23 PM

@awest Definitely recommend American Dreams! Owner works hard to satisfy. We did 2 days. Don't know the cost. Did you see the GT video?

Fri Aug 07 8:42 PM

@ryanbrenizer Dude, you're in Boston and didn't tell me? :-)) Tomorrow, big Trash The Dress event nearby on the beach: <http://bit.ly/q53pU>

DT style="font-size:smaller;</p></div></div></div></div></body></html>
