Thank you to everyone that attended my presentation today at CFObjective conference on **Automated System Testing with ColdFusion, CFSelenium, MXUnit, and Jenkins**. I received a lot of positive feedback about the content, quality of material, and demonstration.

You can download my presentation slides, all the project files, and info here:

- **PDF**
- **Demo App**
- **Read Me**

A general overview of the topic is here.

If you attended my presentation (it ended up being a full room!), please remember to complete the session evals! Go to the #cfobjective schedule page, **click on my session**, and fill out the evaluation at bottom

Ping me with any questions! Thank you!
