Follow me on Twitter!

Fri Aug 28 8:52 PM

Why is it that ColdFusion must be started by a privileged user on every operating system but Mac? Hmph!

Fri Aug 28 8:43 PM

@shutupdanielle Could be worse, you could be in Bolton. 2 pizza shops, that's it. Nary a chicken wing in sight (really).

Fri Aug 28 8:36 PM

@mobarger Big city turn me loose, set me free, somewhere in the middle of Montana

Fri Aug 28 8:08 PM

@styggit Outside temp last night was 52F here, but not sure which is better lower temps or lower humidity.

Fri Aug 28 5:43 PM

ColdFusion 9 (& ColdFusion 8.01) bug for CF Multiserver's bin/cf-init.sh file. Please vote: <http://bit.ly/MsgCT>

Fri Aug 28 4:56 PM

Yep, verified the 3 issues with the Solaris part of the cf-init.sh boot script installer for ColdFusion 9. Oh, bugtracker.....

Fri Aug 28 4:52 PM

RT **@jimcollins**: The wingnuts forget Reagan signed a \$750 billion stimulus plan into law in 1981. **#teaparty #gop #tcot #rnc**

Fri Aug 28 4:47 PM

Found 3 bugs this morning in ColdFusion801 Multiserver's bin/cf-init.sh on Solaris. Installing CF9 as MS to crosscheck, then to log bugs

Fri Aug 28 4:43 PM

Wow, Ted Kennedy's grandson interview He must have received an *incredible* amount of coaching for the reporters. Hollywood or bust!

Fri Aug 28 2:46 PM

@boyzoid Gah! I symlinked 1.5* to 1.6.0, but it seems to have fell back to 1.4.2 when 32bit cf starts. Need to install 64bit CF to use 1.6

Fri Aug 28 2:39 PM

@boyzoid Ok, got CF801 running on Java 1.6 64bit on Mac Loepard **#coldfusion**

Fri Aug 28 2:22 PM

@cnn KCRA reporter Walt Gray should be fired for the comment "that's the story, the extra bonus here", wrt 11yr abductee birth in backyard

Fri Aug 28 2:06 PM

CNN reporter said WRT the abducted 11yr girl, now 29, that gave birth in backyard, "that's the extra bonus [to the news]" Unbelievable

Fri Aug 28 10:50 AM

@orbisflash When's that arm coming out? tap, tap, tap. Need both hands. Thank you!

Fri Aug 28 10:20 AM

@reboog711 Yup, all my contacts from CF Eng at Adobe are on YIM

Fri Aug 28 10:13 AM

@reboog711 I use Adium to bridge GTalk/AIM/YIM, but still Yahoo spews robot spam when starting Adium

Fri Aug 28 10:11 AM

@DanaLanePhoto I'm a 2nd shooter, so we'll have to brainstorm (no pun intended) bc the mansion won't let us inside until 5pm.

Fri Aug 28 10:05 AM

I wish Yahoo Messenger would prevent spam IMs. When I log on I usally get a couple robot IMs

Fri Aug 28 10:02 AM

The outdoor wedding at the Astors mansion in Newport looks like will be nailed by the hurricane pretty hard. As photographer, need Plan B

Fri Aug 28 9:58 AM

@commadelimited RemoteObject the AC to CFC > convert to csv w/ xls extnsion as temp flat file > NavigateToURL(URLRequest) to csv fr/ Flex

Wed Aug 26 5:12 PM

Flex: Making Easy Things Hard. Sigh. RT **@stevenerat**: **@commadelimited** comp.setStyle("backgroundColor", "#FFFFFF");

Wed Aug 26 5:09 PM

@commadelimited comp.setStyle("backgroundColor", "#FFFFFF");

Wed Aug 26 4:35 PM

Dear Tivo: Kudos on builtin help w/Comcast DTA. Dear Comcast: You suck. You couldn't have made it harder if you tried. Tivo exists yanno.

Wed Aug 26 2:58 PM

@cfjedimaster You could also try setting it on fire and using a Mac

Wed Aug 26 2:30 PM

@pcsilva I was just funnin'

Wed Aug 26 2:29 PM

Once again, I forgot the whole ColdFusion community on twitter heads out for a brewski from noon till 3. Try back later.

Wed Aug 26 2:06 PM

Macromedia used to use FuseTalk forums. Loved it. Then Adobe screwed the pooch with format change. How's the forums usability these days?

Wed Aug 26 2:04 PM

@mr_nil Lots of questions about CF9 syntax and features, but looks like **@tpryan** is all over them before the author finishes typing.

Wed Aug 26 1:59 PM

Scouting for unanswered ColdFusion questions on StackOverflow.com. Not many. Maybe I'll try the Photoshop / Lightroom categories...

Wed Aug 26 1:39 PM

@commadelimited The k is for kool. **#koldfusion**

Wed Aug 26 1:37 PM

@benforta er, not my photo, but a direct link to Bhakti's Facebook photo. The Charlie's Angels of Web Applications.

Wed Aug 26 1:36 PM

@commadelimited Yup, that's her. In the middle is **@hareni** and on the right is **@ashaks**.

Wed Aug 26 1:26 PM

The ColdFusion Engineering Team hard at work (and play!) :-) <http://bit.ly/7qp8t>

Wed Aug 26 12:03 PM

@zsteppek because I suck at Flash (Authoring) **#iamnotadesigner**
#bewarethetimeline

Wed Aug 26 11:47 AM

@commadelimited Come to think of it, I used to use CoffeeCup Firestarter for simple Flash animations... maybe that'll do the trick.

Wed Aug 26 11:46 AM

@commadelimited Flash Authoring. Ugh.

Wed Aug 26 11:44 AM

Hrm... I wonder if I can use an animated gif in a Flex preloader, to be more interactive during startup. Thoughts from <http://bit.ly/OO9yB>

Wed Aug 26 11:33 AM

RT **@kathyoreilly**: Website design faux pas and how to avoid them - iMediaConnection.com <http://bit.ly/11uPR3>

Wed Aug 26 11:02 AM

I'm amused at blog comment spammers that actually research the topic to provide relevant content in which to disguise their spam links

Wed Aug 26 2:42 AM

R.I.P. Senator Ted Kennedy 1932-2009. A people's champion

Sun Aug 23 2:25 PM

@webRat ... and in commercial **#photog** often there are Art Directors and others hanging around that want immediate confirmation of quality

Sun Aug 23 2:25 PM

@webRat ... and large viewing live on laptop provides real time feedback to make adjustments while you're still shooting.

Sun Aug 23 2:23 PM

@webRat The laptop platform for the tripod allow you to take it with you on a sturdy base while shooting live from camera to computer

Sun Aug 23 2:02 PM

Now that I've got WiFi networking between camera and macbook, and autoimport into lightroom, time this setup: <http://bit.ly/19NATO> **#photog**

Sun Aug 23 1:43 PM

@smanere Yes, but the green light is only at level 1, so I'm safe to keep playing the midnight photographer

Sun Aug 23 2:22 AM

<http://twitpic.com/eyqut> - Quick snap in the kitchen w/85mm F1.2, using WFT-E1a wireless from DSLR & AutoImport in Lightroom (**@styggiti**)

Sun Aug 23 2:09 AM

W00t! Got Ad Hoc WiFi network w/FTP working between Mac and Canon dSLR. Now able to AutoImport directly from Camera to Lightroom **#photog**

Sun Aug 23 12:12 AM

@ryanbrenizer Fix it by changing custom function 5 to value 0 to reset ETTL.

Sun Aug 23 12:12 AM

@ryanbrenizer When the bottom pins on 580 EX scrape metal on an umbrella adapter that can happen. Use tape over adapter. cont...

Sun Aug 23 12:05 AM

@lightroomblog If you've seen Joe McNally's Small Flash Part 1&2 vids on KelbyTraining, then there's not much new in the One Light vid

Sat Aug 22 11:58 PM

Trying to figure out final steps to config an Ad Hoc WiFi network between my Mac and my Canon's WFT-E1a wireless trans. Static IP only.

Sat Aug 22 11:56 PM

Tested out my new Canon 85mm IS F1.2 lens today. Bokeh is smooth as butter. **#photog**

Sat Aug 22 11:53 PM

@lightroomblog at least she told me she's cancelling, rather than just not showing up... that helps.

Sat Aug 22 11:50 PM

@lightroomblog Pretty short notice, prob just cancel completely since there's a photo assistant and MUA involved...

Sat Aug 22 11:47 PM

Mastered shooting TTL and HighSpeed Sync with the new PocketWizard FlexTT5. +2stops Flash Exp Comp, and -2 stops Exp Comp rocks! **#photog**

Sat Aug 22 11:44 PM

Gah! The beach bunny model canceled for the planned shoot. Anyone look good in a bikini and free to travel to Gloucester tomorrow? **#photog**

Sat Aug 22 7:54 PM

Studying Sports Illustrated swimsuit poses for tomorrow afternoons shoot in Gloucester. Tough work!

Fri Aug 21 10:07 PM

@lightroomblog Agreed on commercial/agency vs portfolio/tfcd. No doubt. TFP will bring the crazies out of the woodwork

Fri Aug 21 10:05 PM

@cfwhisperer Maybe find an artist meetup in your area and hold a group workshop on the topic.

Fri Aug 21 10:02 PM

@lightroomblog If I could smack you.....

Fri Aug 21 9:58 PM

@cfwhisperer If you're thinking of doing fine art nude, first make sure you always have a chaperon to avoid false accusations of impropriety

Fri Aug 21 9:54 PM

@lightroomblog @webRat @demirkapi Case in point: <http://bit.ly/U05RJ>

Fri Aug 21 9:36 PM

... is amazing. Pretty much a lot of guys with camera calling themselves a studio just to get chicks to strip down.

Fri Aug 21 9:35 PM

Searching 4 models in my area now that I'm on <http://www.modelmayhem.com/stevenerat> ; The level of crap photographers out there is amazing.

Fri Aug 21 8:10 PM

Sittin in the dark. Big Tstorm took our town out. Cranking up the generator. No cable but at least we have Tivo

Fri Aug 21 6:31 PM

@commadelimited JQuery Jackpot. Thanks.

Fri Aug 21 5:52 PM

@commadelimited BTW, I still don't know JQuery. Was hoping to attend **@bennadel** 's bootcamp. Prefer live/video training over books.

Fri Aug 21 5:14 PM

@commadelimited Right click Project > Properties > compiler to see SDK options. Same panel has "Add" feature to add downloaded SDKs

Fri Aug 21 4:36 PM

Testing the rebuilt server B doesn't mean flipping the switch and routing all traffic from server A over to it.

Fri Aug 21 11:32 AM

@DanaLanePhoto Thanks for the mention! **#followfriday**

Fri Aug 21 11:31 AM

@styggiti I get 0 spam in my Gmail inbox, but my Yahoo inbox sees 10 or 20 a day.

Fri Aug 21 8:20 AM

I'm pretty sure **@cfjedimaster** could tweet "Stop World Hunger", and a legion of developers around the globe would rise up and actually do it

Fri Aug 21 1:31 AM

RT **@stshank**: Photoshop.com just got Group Albums (smart idea, Adobe) and video sharing up to 200MB (but still 2GB limit for free accounts)

Fri Aug 21 1:28 AM

You know I can hear you, right? **@charliegrieger @tpryan**

Thu Aug 20 11:41 PM

I see Becky Sowada in there a bit too. RT **@LR_Tom**: Meet Craig Marble, Lightroom Sr Quality Engineer: <http://bit.ly/2WYrJn>

Thu Aug 20 11:15 PM

la la la I hear nothing la la RT **@paulkukiel** All my servers are linux but there are times where you need Windows.

Thu Aug 20 10:27 PM

My **@JoeMcNallyPhoto** video just got interrupted by **@Pogue** <http://bit.ly/lD8PI>

Thu Aug 20 10:10 PM

Watching **@JoeMcNallyPhoto**'s new video lesson, "What can you do with one light" on kelbytraining.com **#photog**

Thu Aug 20 7:43 PM

@marcesher I've seen people try to calculate num queries * avg num rows * bytes/row to estimate cache size

Thu Aug 20 7:19 PM

@demirkapi @styggiti I would always use the highest quality because you never know when u're going to shoot that unbelievable moment **#G10**

Thu Aug 20 7:14 PM

Oguz, we need to work on your soft skills :-) RT **@demirkapi: @benforta** the only problem is your photos mostly indoor are not the best.

Thu Aug 20 7:12 PM

RT [@fotofolio](#): Too bad Canon users haven't a decent IR TTL System built in the
