With a map in hand and a GPS strapped to my bicycle, I headed off on this 30 mile loop that starts in Kennebunkport and winds along the very hilly Ocean Ave, then cuts up Route 9 to Biddeford Pool, and cruises empty roads on the way back. Lugging the camera along and snapping pictures while biking was a challenge, but here's a collection of photos to share with you if you'd like to check out this recommended route. [\[74 photos.\]](#)
