Over the winter holiday, I had the opportunity to spend some time scanning in many of my old photographs from various trips. I've finally managed to put them together in online photo galleries:

Brandeis Mountain Club, Ice Climbing on Arethusa Falls

The highest waterfall in New Hampshire. Brandeis Mountain Club guided by Kurt Winkler and Ian Turnbull of Mountain Guides Alliance. The highest waterfall in New Hampshire. Brandeis Mountain Club guided by Kurt Winkler and Ian Turnbull of Mountain Guides Alliance. January, 1999.[Read the full story](#)

Brandeis Mountain Club, Winter Hiking on Mt Moosilauke

The Brandeis Mountain Club spends a couple days camping and hiking in New Hampshire's western White Mountains to climb Mt. Moosilauke in February, 1999.

Towson University's Project Marj

Project Marj was run by Towson State University modeled on the Outward Bound experience to build teamwork, leadership, and many related skills intended to assist personal development during the college experience and throughout life. We spent a full week camping and hiking long days throughout Shendandoah National Park, Virginia. August, 1990

Swimming with Manatees in Crystal River, Florida

Biology students from Towson State University spend a week in Florida, January, 1994.

Copper Canyon, Mexico

Copper Canyon, also known as Las Barrancas del Cobre, is Mexico's equivalent of the Grand Canyon. You can take the train from Chihuahua through high mountains to arrive at Hotel Divisadero. August, 1995

Bahamian Field Station, San Salvador

Marine Biology class at the Bahamian Field Station on the eastern most island in the Bahamas. This place currently known as the Gerace Research Center. Towson State University 1991.
